

UK Woodland Navigation Course

Pre~Course Information

Preparing your path to discovery...

THE COURSE SITE, FACILITIES AND EQUIPMENT PROVIDED

The Course Site

This course will be conducted from an expedition style camp set amongst the beautiful English woodland of a large, private estate in East Sussex. It is a hidden gem and a wonderful example of ancient British woodland, containing staggering specimens of Oak, Beech and Yew trees. Being England's oldest deer park, it really does feel wild and it's not hard to see why some of the most eminent figures in British history chose to spend some of their leisure time here. Henry VIII hunted here on several occasions, as did, on one occasion, his daughter Elizabeth I, spending six days hunting in 1573.

With three species of deer, foxes, badgers, hares - not to mention the array of bird life it is blessed with, your time spent here is guaranteed to be an experience in itself.

Although there are public footpaths in some areas of the estate, it is little known and in general is very secluded.

Having met in Tunbridge Wells, driven in convoy to the estate and parked, we will walk 900 metres to the camping area where you will have space to set up your personal camp. This beautiful area is made up mainly of broadleaf deciduous trees with plenty of flat, level areas for you to set up a tent and more than enough trees to string a tarp or a hammock between.

A thorough camp tour will be given on your arrival to help you familiarise and all social distancing and hygiene measures will be discussed.

Catering

This course is self-catering so you will need to bring enough food and a stove to cook on. If you prefer, you may light a small fire to cook over but it is very important that you ensure it does not spread and that you practice a 'leave no trace' mindset. Being outdoors without refrigeration in potentially warm weather it is a good idea to either bring fresh food to use at the beginning before moving on to dehydrated rations or to bring a good quality cool box with plenty of ice which allows you to keep fresh food for longer. Please see the Woodlore self-catering food suggestions for some convenient camp cooking ideas.

You will be issued with your own jerry can at the start of the course with fresh drinking water, which can be refilled when needed.

Washing up bowls are also provided along with sponges and washing up liquid. Andy Handys and soap are provided for hand washing.

Latrines and Showering

You will be provided with your own toilet kit, including toilet roll, lighter and hand gel for use at the latrine trench. This is a simple, tried and tested, hygienic method. You will be taught the best hygiene practices to ensure everyone is safe and to ensure that we preserve the sensitive spring water sourced from this very special course site.

If you would like to have a shower, we have a canvas bag shower in a private area and a bucket for heating water over the fire. You may find it useful to bring some flip flops or similar to avoid getting your feet dirty while showering.

Equipment

The following items will be provided by Woodlore for your use during the course:

Maps and Compasses

We will supply any maps that are needed along with waterproof map cases. We can lend you a compass for the duration of the course but please feel free to bring your own if you have one.

We also have very well stocked first aid kits, fire extinguishers and fire blankets for your safety kept in our store tent on site. This is an expedition style camp so please take extra care when using sharp tools and take responsibility for any small cuts yourself. If you need medical attention or start to feel unwell during the course, please let the course leader or a member of the team know at the earliest opportunity.

Please note that the use of any cutting tool apart from a small pen knife is not permitted on this course.

If you wish to use a mobile phone during the course, please consider the other members of the group and switch it on to silent mode.

CLOTHING AND EQUIPMENT CHECKLIST

This clothing and equipment list is designed to help you decide which items to bring and to ensure that you have the best experience possible. Having the right kit will make your experience more enjoyable and enable you to focus more on learning.

In the past we have been asked by clients for help in sourcing certain items of clothing and equipment. This list therefore includes options stocked by Woodlore which have been tried and tested by Ray Mears and the Woodlore Team. There is of course no obligation to buy from us and we will be delighted to offer you advice and guidance to ensure your preparation goes smoothly. With this in mind, please do not hesitate to get in touch with us, even for the slightest query.

All items listed in red are essential for this course. All other items are just recommendations.
