

# Fundamental Bushcraft Severnside Course

Pre-Course Information

Preparing your path to discovery...

# **THE COURSE SITE, FACILITIES AND EQUIPMENT PROVIDED**

## **The Course Site**

This course will be conducted from an expedition style camp set amongst the beautiful surroundings of a large, privately owned mixed woodland. Lying in one of the most beautiful and secluded areas of Worcestershire, yet well within 45 minutes by road or rail from Birmingham, it is easily accessible for those travelling from outside the county. Although there are some public rights of way in the area, the vicinity we work in is very quiet and does not generally attract members of the public.

With two species of deer, including muntjac, along with foxes, badgers and many more species, your time spent here is guaranteed to be an experience in itself.

Having met in Callow Hill, we will drive in convoy to the estate and park. It is then approximately a five hundred metre walk to the camping area where you will have space to set up your personal camp. This beautiful area is made up mainly of mixed woodland with flat, level areas for you to set up a tent and more than enough trees to string a tarp or a hammock between.

As well as your own camping set-up, there will be a communal area which will be used both for lectures as well as coffee breaks. Here you will find a circle of logs for seating, a black board, a fire, a kettle and a brew box.

A thorough camp tour will be given on your arrival to help you familiarise.

## **Catering**

We will provide all food for you during the course which will be served at our camp kitchen. This is a simple arrangement with a table and cooking equipment which is protected from rain by a large canvas tarp strung up between trees. There will be a fruit bowl here at all times for your use. For breakfast there will be a selection of cereals and some bread that you can toast over the fire. Depending on the weather, lunch will be either a buffet with a selection of cold food or a hot alternative. Dinner will be a tasty, nutritious and filling hot meal. If you have any dietary requirements then please contact us as soon as you can.

Some meals however, will be prepared by you and the other course participants, giving you the opportunity to do some outdoor cooking. In these instances we will provide a well-stocked 'kitchen box' containing chopping boards, knives and other useful items. A set of stainless steel billy cans will also be provided for use over open fires.

For refreshments, we provide a communal brew box supplying tea, coffee, milk, sugar, hot chocolate, fruit squash and biscuits.

Fresh drinking and washing water is always available in our camp as we have a large water bowser. We have several jerry cans distributed around the camp in convenient areas for your use.

Communal washing bowls are also provided along with sponges and washing up liquid, soap and a nailbrush.

## **Latrines and Showering**

The latrine is simply a trench dug into the ground in a secluded spot, just like you would use when on a trip in the wilderness and away from facilities. We provide a container with toilet paper, hand gel and matches. This is a hygienic, easy and practical method.

If you would like to have a shower, we have a canvas bag shower in a private area and a bucket for heating water over the fire. You may find it useful to bring some flip flops or similar to avoid getting your feet dirty while showering.

## Equipment

The following items will be provided by Woodlore for your use during the course:

### **Tarp**

A tarp is a waterproof sheet that provides a very simple way to form a shelter from the elements. You will be taught how to erect a tarp properly and set yourself up comfortably for the night.

### **Fixed blade knife**

You will be given a [Morakniv Companion Heavy Duty MG Knife](#) to use which is yours to take home at the end of the course. However, if you are under the age of 18 you will not be able to take this away from the course unless there is an adult who can receive it on your behalf at the completion of the course.

### **Tools**

A leather tool roll will be issued to you during the course. It will contain several items that are necessary for various tasks during the week. It will include: a [Bahco Laplander Folding Saw](#), a [Steel Striker](#) and piece of flint, a [Fire Stick](#), a [Fallkniven DC4 Diamond/Ceramic Whetstone](#) and an [S.Djarv Hantverk Spoon Knife](#). This must be returned in good order at the end of the course.

We also have very well stocked first aid kits, fire extinguishers and fire blankets for your safety kept in our store tent on site.

Please note that the use of axes is not permitted on this course.

If you wish to use a mobile phone during the course, please consider the other members of the group and switch it on to silent mode.

# CLOTHING AND EQUIPMENT CHECKLIST

This clothing and equipment list is designed to help you decide which items to bring and to ensure that you have the best experience possible. Having the right kit will make your experience more enjoyable and enable you to focus more on learning.

In the past we have been asked by clients for help in sourcing certain items of clothing and equipment. This list therefore includes options stocked by Woodlore which have been tried and tested by Ray Mears and the Woodlore Team. There is of course no obligation to buy from us and we will be delighted to offer you advice and guidance to ensure your preparation goes smoothly. With this in mind, please do not hesitate to get in touch with us, even for the slightest query.

**All items listed in red are essential for this course. All other items are just recommendations.**
